

# GOLD BAR - OPERATIONS GUIDE

CONTACT: Patrick Miller (323) 793-5668  
or abstractmachine@yahoo.com

This piece contains an amplifier, mixer, and CD player. For the sake of simplicity please rely only on master volume control dial on mixer (see below) to control the volume of the piece and to turn the piece "on" and "off" at opening and closing.

This way gallery attendants need not mess with the looping CD or the controls on the amplifier.

Thanks, Patrick Miller

**VOLUME CONTROL/ "ON-OFF"**  
Please use only this dial to turn piece "off" or control level.
